Claude Skill and Plugin by Alex Labat

Executive Summary

DreamClerk is a Chennai-based career-simulation platform for Indian undergraduates, shipped as a Vite React SPA with a pre-hydration IIFE that swaps per-route title, description, keywords, canonical, OG, and Twitter meta. The site is broad (20 indexed URLs) and ships well-formed JSON-LD (4 static blocks + 2 per blog post = 24 total) plus robots.txt, sitemap.xml, and llms.txt. The biggest SEO leak is that the static shell H1 never changes per route — every no-JS / pre-hydration crawler sees the brand tagline on /about, /tracks, /faq, and all 10 blog posts. The biggest GEO gap is E-E-A-T person signals: Organization.founder is a generic Person('dreamclerk team') and 10 of 10 blog posts credit an Organization, not a Person. The biggest AEO win on the table is a HowTo schema on /how (the 8-step OL is begging for it) and SpeakableSpecification on the FAQPage — both ~2 hours of work.

Dimension	Score	Status	Key Takeaway
SEO	7/10	On Track	Strong per-route meta + 24 JSON-LD blocks; static shell H1 drift is the leak
GEO	7/10	On Track	Originality + factual density are LLM-citation gold; Person E-E-A-T is the gap
AEO	6/10	On Track	Question-phrased blog titles and conversational copy are AEO-ready; HowTo + Speakable absent
Combined	20/30		Solid foundation — 5 specific fixes will lift all three scores

Pages Audited

All 20 routes on the sitemap were crawled with a desktop user-agent. Every route returns the same 45,788-byte HTML shell; per-route meta + JSON-LD are baked into a single <script id="__SEO_DATA__" type="application/json"> block and swapped client-side by a pre-hydration IIFE.

URL	Type	Schema (this page)	FAQ?	HowTo?	Desc len	Title len
/	home	Organization · WebSite · SoftwareApplication · FAQPage	Yes	No	197	65
/how	static	same 4	Yes	No	156	52

SEO Analysis

Score: 7/10 — On Track

Technical On-Page

Signal	Finding	Status
Title tag	Present and unique on all 20 routes; 9 of 20 in 50-60c range	Good
Title tag	5 blog titles are 72-87 chars (will truncate); /faq /about /privacy /terms are 34-43c	Needs Attention
Meta description	Present and unique on all 20 routes	Good
Meta description	9 of 20 descriptions exceed 165c (Google will rewrite)	Needs Attention
H1	Per-route H1 set by React app	Good
H1 (no-JS)	Static shell H1 hardcoded to brand tagline on every URL	Missing
H2/H3	7 H2s in static shell, no H3 sub-topic hierarchy	Needs Attention
Canonical	Per-route, self-referencing via IIFE	Good
Canonical (no-JS)	Static shell canonical hardcoded to /	Missing
Robots meta	index, follow, max-image-preview:large, max-snippet:-1	Good
Viewport	width=device-width, initial-scale=1.0	Good
Open Graph	og:type, og:url, og:title, og:description, og:image, og:locale, og:site_name per route	Good
Twitter Card	summary_large_image with per-route url/title/description/image	Good
Internal links	35 internal links in static shell with descriptive anchor text	Good
Image alt text	OG image alt present per page	Good
Sitemap.xml	20 URLs, valid priority/changefreq distribution	Good

Content Quality

Signal	Finding	Status
Sitemap lastmod	Uniform 2026-06-16 (loses per-page freshness signal)	Needs Attention
Robots.txt	Allows /, disallows /api/ and /*/admin, points to sitemap.xml + feed.xml	Good
llms.txt + llms-full.txt	Both present (rare GEO win)	Good
llms-full.txt	Byte-identical to llms.txt — should contain full prose	Missing
Schema.org — Organization	Complete (name, logo, founder, address, contact, sameAs x5)	Good

Structured Data

Signal	Finding	Status
Schema.org — WebSite	With SearchAction sitelinks searchbox	Good
Schema.org — SoftwareApplication	AggregateRating 4.9/1847 with 3 visible Reviews (615:1 ratio)	Needs Attention
Schema.org — FAQPage	8 questions in static block	Good
Schema.org — BlogPosting	Complete on 10 of 10 blog posts (datePublished, dateModified, publisher, inLanguage, keywords)	Good
Schema.org — BreadcrumbList	Complete on 10 of 10 blog posts	Good
Schema.org — HowTo	Absent on /how (8-step OL is prime HowTo territory)	Missing
Schema.org — Person	0 Person schemas (3 founders, 3 reviewers all un-Personed)	Missing
Schema.org — ItemList	Absent on /tracks, /companies, /blog index	Missing
Schema.org — SpeakableSpecification	Absent on FAQPage	Missing

GEO Analysis

Score: 7/10 — On Track

E-E-A-T Assessment

Signal	Finding	Status
Author information	All 10 blog posts credit Organization ('dreamclerk team'), no Person byline	Missing
About page	Present (/about) — names ananya, raghav, priya in description	Good
About page Person schema	3 named founders not promoted to Person entities	Missing
Contact — email	hi@dreamclerk.com in Organization.contactPoint + llms.txt	Good
Contact — phone / address	Phone absent, physical address absent (Chennai, India declared only in schema)	Needs Attention
Trust signals — testimonials	3 in JSON-LD Reviews (aanya sharma, karthik r, mira patil)	Good
Trust signals — awards / press	Mentioned in /about description but not surfaced in static shell	Needs Attention
Organization schema	Complete (name, logo, foundingDate 2025, areaServed IN, sameAs x5)	Good
Founder schema	Generic Person('dreamclerk team') — should be 3 Persons	Needs Attention

Content for AI Synthesis

Signal	Finding	Status
Factual density	High: 1,200 applicants, 14% callback, 73% unemployed, r=0.12 vs r=0.40	Good
External source citation	Low — no links to BLS / NSSO / McKinsey / NASSCOM anchoring 73% / 85%	Needs Attention
Claims stated plainly	Yes — short declarative copy, no jargon	Good
Entity clarity (brand)	Consistently 'dreamclerk'; alternateName 'dreamclrk'	Good
Entity clarity (people)	aanya appears as both founder and review author — no disambiguation	Needs Attention
Originality signals	Strong — own cohort data, named statistics, original rubric changes	Good
SameAs / brand entity links	5 social profiles (IG, X, LinkedIn, YouTube, GitHub)	Good

Technical GEO

Signal	Finding	Status
HTTPS / security	Enforced, HSTS 2-year preload, CSP allowlist	Good
Clean crawlability	Yes via static shell + IIFE	Good
Dataset schema	Absent (fresher-unemployment post has 73% / 85% cohort numbers)	Missing
ClaimReview schema	Absent on bias-audit post	Missing
llms.txt	Present and well-formed	Good
llms-full.txt	Present but byte-identical to llms.txt	Missing

AEO Analysis

Score: 6/10 — On Track

Featured Snippet Eligibility

Signal	Finding	Status
Direct answer paragraphs	Present in FAQ section, blog posts use clear top-of-article summaries	Good
Definition patterns	Yes — "career simulation platform", "in-browser IDE" defined early	Good
List content	OL on /how, UL lists on /tracks, /companies	Good
Table content	Comparison tables in blog posts (fresher unemployment, 3 signals)	Good

Structured Answer Formats

Signal	Finding	Status
FAQ schema	8 questions in static FAQPage JSON-LD	Good
FAQ schema (drift)	FAQ UI shows 19 questions, JSON-LD has 8 — UI/structured-data drift	Needs Attention
HowTo schema	Absent on /how (8-step ordered list)	Missing
Question-phrased H2/H3	Static shell uses statements ("how it works — 8 steps") not question form	Needs Attention
Question-phrased blog titles	Strong — "how to get hired as a fresher with no internship and no network"	Good
SpeakableSpecification	Absent on FAQPage	Missing

Voice Search Readiness

Signal	Finding	Status
Conversational language	Strong — short, declarative, sentence-case, no jargon	Good
Long-tail question coverage	Blog titles ARE long-tail questions — strong AEO surface	Good
Local signals	Chennai, India declared; no GBP profile, no GeoCoordinates	Needs Attention

Priority Recommendations

Priority	Issue	Dimension	Effort	Impact
CRITICAL	Static shell H1 never changes per route	SEO	Low	Highest
HIGH	5 blog titles are 72-87 chars (SERP truncation); 9 of 20 descriptions over 165c	SEO	Low	High
HIGH	llms-full.txt is byte-identical to llms.txt (no differentiated prose)	GEO	Med	High
HIGH	Promote 3 founders (ananya, raghav, priya) to Person schema + per-author bylines	GEO	Med	High
HIGH	Add HowTo schema on /how + SpeakableSpecification on FAQPage	AEO	Low	Med-High
MEDIUM	AggregateRating count vs visible Reviews (3) is 615:1 — Google rich-results policy risk	SEO	Med	Med
MEDIUM	ItemList schema on /tracks, /companies, /blog index	AEO	Low	Med
MEDIUM	Dataset schema on fresher-unemployment post (cohort numbers 73%) + ClaimReview on bias-audit	GEO	Low	Med
QUICK WIN	Tighten /faq, /about, /privacy, /terms titles (currently 34-43c — wasting SERP real estate)	SEO	Low	Med
QUICK WIN	Per-page lastmod on sitemap.xml (currently uniform 2026-06-16)	SEO	Low	Low

What's Working Well

Strength	Evidence
20 bespoke per-route SEO payloads	title + description + keywords + canonical + OG + Twitter all swapped pre-hydration; no template-generated garbage
24 JSON-LD blocks across the site	4 static (Organization, WebSite, SoftwareApplication, FAQPage) + 2 per blog post (BlogPosting, BreadcrumbList) — all parse cleanly
Original, citation-ready statistics	1,200 applicants, 14% callback, $r=0.12$ vs $r=0.40$, 73% / 85% — far above the median startup site for LLM-citable data
llms.txt + llms-full.txt shipped	Above the median (most sites have neither), even with the byte-identical issue
Rich no-JS static shell	1 H1, 7 H2, 2 nav, 1 OL, 5 UL, 35 internal links, footer — what Googlebot sees first is structured and scannable
Clean robots.txt + sitemap.xml	20 URLs, sensible priority distribution, valid changefreq, llms.txt not in robots (small add)
Question-phrased blog titles	AEO-friendly by design — "how to get hired as a fresher with no internship and no network" is a featured-snippet candidate
Security headers hardened	CSP allowlist, HSTS 2-year preload, X-Frame-Options, Permissions-Policy — strong trust signal for AI crawlers

Glossary

SEO — Search Engine Optimization

The traditional practice of optimizing a site to rank higher in search engine results pages (Google, Bing). Covers title tags, meta descriptions, heading structure, schema markup, internal links, content quality, and technical performance.

GEO — Generative Engine Optimization

Optimizing for AI-powered search engines (Perplexity, ChatGPT Search, Google AI Overviews, Gemini) that synthesize answers from multiple sources and cite pages. Rewards E-E-A-T signals, entity clarity, factual density, and original data.

AEO — Answer Engine Optimization

Optimizing for featured snippets, People Also Ask boxes, and voice search. Search engines and AI assistants need to extract a direct, concise answer. Key formats: FAQ schema, HowTo schema, question-phrased headings, SpeakableSpecification.
